Bruce Cleophus

Full Stack Developer

Nairobi, Kenya • Email: brucecleophus2006@gmail.com • phone: +254 796141764

GitHub: github.com/brucecleophus • Linkedin: in/bruce-cleophus-895b384144

SUMMARY

A Full Stack Developer with a strong interest in building responsive, modern web applications using JavaScript, React, Python, and backend technologies. Hands-on experience with HTML, CSS, JavaScript, Git, GitHub, REST APIs, databases, and modern development tools. Passionate about learning, solving real-world problems, and developing complete web solutions from frontend to backend.

EDUCATION

Bachelor's Degree in Computer Science — In Progress
Moi university — Kenya

EXPERIENCE

Full Stack Developer — Personal & Academic Projects *2025 – Present*

- **Web Development:** Built responsive web pages and applications using HTML, CSS, JavaScript, React, and modern UI techniques.
- **Frontend Development:** Created reusable components, navigation, forms, landing pages, and responsive layouts for different screen sizes.
- **Backend Development:** Learning and implementing server-side development, REST APIs, authentication, databases, and application logic.
- **Development Workflow:** Used Git and GitHub for version control and worked with VS Code and modern AI-assisted development tools.

Selected Projects

- **Coffee Shop Website:** Designed a modern responsive coffee-shop website concept with a visually focused landing page, navigation, and customer-facing sections.
- **Portfolio Website:** Developing a personal developer portfolio to showcase projects, technical skills, and professional contact information.
- **Web Applications:** Built and practiced interactive applications using frontend technologies, APIs, forms, and deployment workflows.

PROJECTS

Personal Developer Portfolio — *HTML, CSS, JavaScript / React, GitHub, Vercel*

- Built a professional portfolio to present projects, skills, and developer experience.
- Practiced GitHub-based deployment and modern web hosting workflows.

SKILLS

Frontend	HTML5, CSS3, JavaScript, React, Responsive Design, Tailwind CSS
Backend	Python, REST APIs, Node.js / backend fundamentals
Databases	SQL fundamentals, database concepts
Tools	Git, GitHub, VS Code, Vercel, Postman, AI coding tools

CERTIFICATIONS & LEARNING

- Web Development — Earned successfully
- Git & GitHub — Practical project-based learning
- Full Stack Development — self-directed learning
